It was an honour and matter of great pleasure for having been invited as Chief Guest Sood Sabha Chandigarh in 57th Sood Milan Divas. I sincerely thank Sood Sabha Chandigarh for giving me this opportunity to be the Chief Guest on this day. Over the years Sood Sabha has worked tirelessly towards the betterment of the society and helping those in need. Good Manners

It is an accepted concept of an elite and modern society that the 'Decency & Decorum' is to be observed at all levels. This goal could be effectively achieved by practicing good manners and imbibing pleasing habits in oneself.

Bal Krishan Sood

Good manners and pleasing habits are inter-related and complementary of one another. Both are inter-dependent and are equally relevant to the respective concepts. Good manners are admired by all and a person endowed with good manners and pleasing habits is liked all around. Everybody wants to get associated with such a person. Good manners and fine habits are traits of an ideal citizen. Such a person is an asset to his country and to the global society. Such a man respects his elders and loves his younger ones. He cooperates with others and gives due importance and respects the view point of his friends and foes as well. He is very patient and tolerant to others' views.

He is equally aware of his rights and duties, as well as responsibilities. He obeys the rules of the society very passionately, for example, he happily obeys the traffic rules. He is polite, passionate and considerate to everyone - young or old, rich or poor and faithfully abides by the laws of society and his country and respects the view point of others. He sets an example both at home and at his workplace. People happily follow him for his conduct and behavior. Overall, he is an ideal citizen, an ideal student and a sincere person. Good manners and pleasing habits are a pre-requisite at all levels and in every sphere and situation. There are table manners at the dining table. Good manners are all pervasive and they are required in talking to your fellowmen and friends. Good manners and fineness in conversation win him great applause at every step. Good manners are also required at home during

conversation with your family members. It is must to place the things at home promptly and properly at their respective locations. Adherence to good manners and fine habits avoids and eliminates any chance of confusion and conflicts. It inducts promptness and punctuality, leading to peaceful and pleasures in life. All these qualities enhance one's personality and are necessary for overall development of a person and command respect at every level and situation. Besides all these things, this also enhances the prestige and reputation of ones' friends and fellow people.

In conclusion, good manners and habits are a key to live an honorable and happy life. All this also results in inculcating an aura of self-respect and self-confidence, that is 'Bharosa Dhan', which finds mention in religious scriptures of Sikhs. 'Self Confidence' ('Bharosa Dhan') has been specially emphasized upon by our Great Gurus and has been accepted as must mantra for living an honorable, prosperous, peaceful and meaningful life. We should, therefore, inculcate good manners and pleasing habits in ourselves and encourage others to do the same.

INTROSPECTION

"In the presence of trouble, some buy crutches, other grow wings." You may fall in problems, but these are to test one to his/her best. The difficulty is that some of us stop trying so many times. We should always face a challenge with, "How we can?" and not with "Why we cannot?" Patience, will power, determination, courage and confidence are the sterling qualities of the mind which are indispensable in the struggle of life. Lives of great people are nothing but success stories, where it has been proved that sooner or later the man who wins, is the man who thinks he can. So have a positive attitude, as being an optimist you can turn scars into stars and thus win laurels in life. Remember that "Destiny is not a matter of chance; it is a matter of choice". It is not a thing to be waited for, it is a thing to be achieved." Change does not roll in on the wheels of inevitability, but comes through continuous struggle. And so we must straighten our backs and work for the upliftment of our brethren. A man can't ride unless your back is bent.

For the past 55 years, I have looked in the mirror every morning and asked myself: 'If today was the last day of my life, what I am about to do today?' And whenever the answer has been 'No' for too many days in a row, I know I need to change something. I'm not going to change the way I look or the way I feel.

- Atul Sood

Life is a sport

At every step in our life we face challenges and sports make us more capable in facing them. Sports also teaches us the way of living life. Lets take steeplechase as an example, in this race there are hurdles at equal distances on which sprinters have to jump from above. Life's challenges are the same as hurdles, and we have to maintain the right momentum, consistency or we will run head first into them or fall. But we make mistakes as well. We should try to improve and move ahead as there might be a chance to win.

Sports also teaches us the value of practice, as practice makes a man perfect, and a person lacking skills or talents can also be a great man with just practice. We also should have competitive spirit as we compete with each other nearly every day. Sports helps us to improve both our competitive & sportsman spirit which makes us learn winning & losing matters little. But it does not mean that we should not work hard to achieve our desired goals.

Devotion, sincerity, consistency and hard work always pay, they never go waste. We must always keep in our minds that only performing our duties honestly is in our hands, reward is the mercy and blessing of the Almighty.

THE MALEVOLENT MAGIC OF ALCOHOL

(Briefed to me by Dr Anurag Saincher)

ALCOHOL (C₂H₅OH – ETHYL ALCOHOL) was discovered over nine thousand years ago and in the middle ages was described as the “Elixir of Life” and the “cure to all human ailments”. Despite all myths to the contrary, after the initial euphoric pronouncement of the balm of Gilead to heal all, it became apparent as a very toxic chemical which causes severe injuries to all the major systems.

Sudhir Sood

THE EFFECTS:

Alcohol is water soluble and after drinking gets easily absorbed into the blood stream and enters all the cells of the body by diffusing across membranes along the concentration gradient. After entering it acts as a direct intracellular toxin and impairs functioning at many levels including mitochondria, ribosomes and functioning enzymes. The brain is the first organ whose malfunction is perceptible to the person...

The frontal lobe of the brain gets affected first, and there is a sense of disinhibition and euphoria... followed by sedation and non-physiological sleep. A person wakes up tired, depressed and the entire body feels unwell, throbbing headache, body ache as the poisoned body slowly recovers from the injury.

Whenever the person drinks alcohol, the heart gets poisoned and starts to beat rapidly and continues to beat at a faster rate till the liver removes the alcohol from the blood. There occurs injury to heart muscle and the electric conduction system of the heart.

The pancreas in the body is a very delicate organ and alcohol attacks the pancreas directly a sudden very severe acute injury to the pancreas associated with severe abdominal pain, vomiting, shortness of breath that can progress into multiple system organ failure and death within 1-2 days. Sometimes, the person keeps losing tiny parts of their pancreas till they develop diabetes that keeps progressing till they become blind or lose their kidneys even with the best treatment.

Every sip causes tiny scars to form in the liver and a point comes when the liver is left shrunken and hard from all the drinks they took in their life. This is called cirrhosis and the person develops yellow eyes, swollen belly with free liquid in it and will frequently die of liver failure.

Alcohol is very well known to be cause of many cancers in the body including cancer of

the lip, floor of mouth, tongue, oral cavity, throat, esophagus, stomach, kidney and urinary bladder.

THE ADDICTION: The 1-2 hours of euphoria and disinhibition fuels the need to drink again and again.... Resulting in the spiral of addiction.

There are many victories worse than defeat... To drink a bitter, expensive concoction to experience 1-2 hours of euphoria (defined as a false sense of elation...) and then suffer lifelong health consequences, can only be described as a ghastly act of myopic, slow, self immolation, the ultimate expression of tenacity of hideous human stupidity.

Therein lies the savage, scandalous, stupefying, spurious, illogic of alcohol...!!!

The role of women in today's world

Women are the epitome of strength, love, sacrifice and courage. The role of women in today's world has changed significantly and for better. Women are now self-sufficient, well aware and financially independent. They have attained immense success in every field, whether it is sports, politics or academics.

Education is an important key to success and empowering women would become more pertinent if women were well-informed and educated. Mother Teresa, Pratibha Patil, Kalpana Chawla and many more have been very significant and are an idol for every women in India and across the globe.

The role of women has changed tremendously. From housewives to CEOs, the transition can be seen at an accelerating rate. Modernisation and the advent of the latest technology have widened hope and opportunities for them.

Today's women are adorned with patience and perseverance which has helped them to attain the pinnacle of success. Women are more focused and have a unique decision making power even at senior leadership levels, in the most optimal manner, and at times are in a better position than men. Empowering women can help the society to grow and develop at a faster pace.

We are definitely redesigning the world.
